“ What memories I have of double dating with Dewey when he was dating Karen Elwood and I was dating her younger sister, Pam. We would overstay our visits at their house so Dewey would try to make up time late Saturday night by speeding south on Hamner. His Ford had pins on the hood at the very front but nothing by the windshield. He would go so fast that the hood would start rising up so he would then slow down enough to let the hood return to rest at its normal position.

Sorry to hear about Judy Deleo Spires losing her husband. Life is certainly fragile and very precious. I didn't meet Judy until 7th grade when we were in the same homeroom. Judy, you have always been one of my favorite classmates. I recall how someone had taken the belt to your dress during gym at Corona Junior High. You had to go around for the rest of the day wearing a dress that was like a MuuMuu. Probably the first one in our class to set the style. Although, I think you really didn't like being on the cutting edge of fashion in Junior High.

Wish I had known about Dewey's passing. My sister was a good friend of his sister, Bobbie Lund during their school days. I would have certainly paid my respects to Dewey.

“ Over a year late but I am so sorry to hear of Dewey's family's loss. We were in band together in Corona High School. That was the group to belong to. Since I lost my husband about two years ago I found that little takes away from the loss, but may the good memories win out.

“ Dewey was a close friend in Corona, CA, from second grade, in the original Lincoln Elementary School, all the way through graduation at Corona High School. Such a good buddy to so many of us that just kind of hung out and enjoyed each other. I remember he and the other guys used to spend a lot of time leaning in to the engine area of one of their cars, and doing repair jobs. We had lots of good laughs over the years, and Dewey was always kind and considerate of everyone in our class. A gentleman in every way possible! Happy Trails, good friend. Gail Leister Bensen
